Policy briefs and

- Prof. Busse developed the course for World Bank
- Taught at Observatory Venice Summer School
- Taught at TU Berlin since 2009
- Completely revised in 2017

What do you expect from the course?

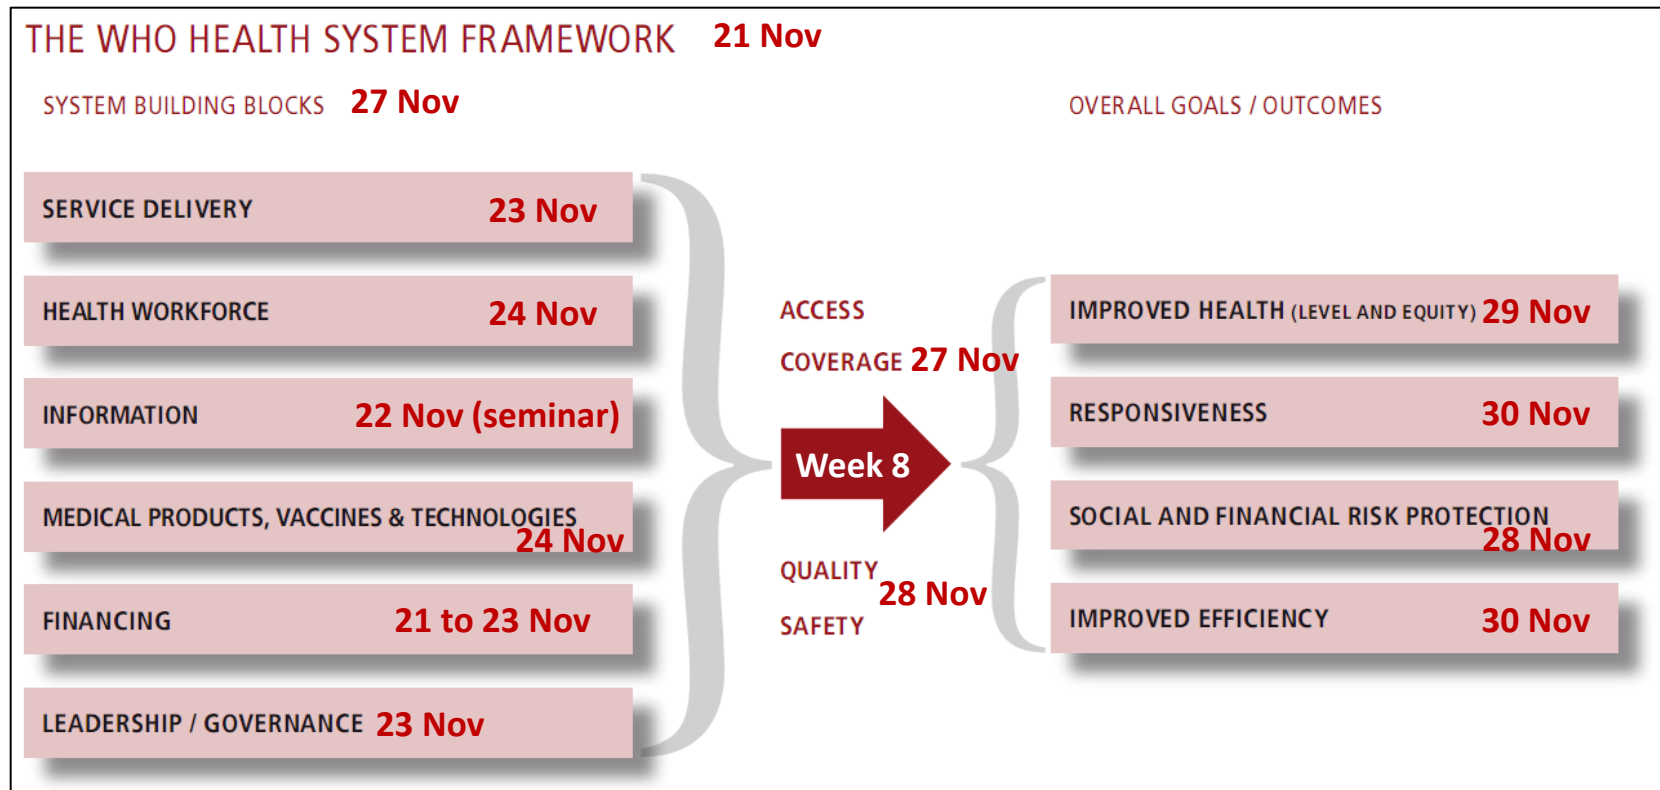

- Round of introductions:
 - Background
 - What do you expect from the course?
- What is a health system?

People, institutions and resources, arranged together in accordance with established policies, to improve the health of the population they serve, while responding to people's legitimate expectations and protecting them against the cost of ill-health through a variety of activities whose primary intent is to improve health.

European Observatory for Health Systems and Policies (2007)

WHO building blocks

30 Nov/1 Dec

WHO 2007
